

HYCON HCS20 CUT-OFF SAW

WE DON'T
BLOW
SEALS

INTEGRATED MOTOR DESIGN – DOESN'T BLOW SEALS

LOW WEIGHT - COMPACT SIZE

RAIL MOUNTABLE

PRODUCT FEATURES

The HYCON HCS20 cut-off saw cuts all types of concrete, steel, rock, etc. The HYCON cut-off saw is a very sturdy tool for cutting even under extreme conditions. Cutting in walls or other large items, which heavy machinery cannot reach is no obstacle for the HCS20 cut-off saw.

The hydraulic cut-off saw from HYCON can be used for horizontal and vertical cutting.

The saw stops automatically if the blade jams thanks to the system pressure relief valve. When releasing the trigger, the blade stops rotating a maximum of 10 sec., ensuring no injury to the user.

The HYCON Power Drive's high-quality, purpose-built motor ensures a minimum of service because it doesn't blow seals. The integrated drive unit design minimizes points of failure, making your tool last much longer.

HYDRAULIC CUT-OFF SAW HCS20

Item no., Standard	3030510
Item no., Flush cut	3030515
Weight [kg / lbs]	11 / 24,2
Blade dimensions Ø [mm / inch]	500 / 20
Arbor size [mm / inch]	1"-12 UNF Links
Cutting depth [mm / inch]	212 / 8,3
Oil flow [LPM / GPM]	20-46 / 5-12
Working pressure [bar / psi]	120 / 1740
Max pressure [bar / psi]	172 / 2500
Max return pressure [bar / psi]	40 / 580
Rotation speed max [rpm]	2500
Blade peripheral speed [m/s / yard per second]	65 / 71
Length of whip hoses [m / feet]	2 / 6'6"

ACCESSORIES

HYCON SawEZ Guide Rail, item no. 4040100. Adaptor item no. 4040120
