

HYCON HHS20 HANDSAW

INTEGRATED MOTOR DESIGN – DOESN'T BLOW SEALS

ERGONOMIC HANDLE DESIGN

ADJUSTABLE HANDLE WITH FOUR POSITIONS

PRODUCT FEATURES

The HYCON HHS20 handsaw cuts all types of concrete, steel, rock, etc. The HYCON handsaw is a very robust tool for cutting even under extreme conditions. Cutting window openings or other heavy-duty tasks, that heavy machinery cannot reach, is no obstacle for the HHS handsaw.

The hydraulic handsaw from HYCON can be used for horizontal and vertical cutting.

The skid plate with a replaceable rear splash guard and front-mount handle improves user comfort and control, ensuring the perfect cut, every time.

The HYCON Power Drive's high-quality, purpose-built motor ensures a minimum of service because it doesn't blow seals. The integrated drive unit design minimizes points of failure, making your tool last much longer.

HYDRAULIC HANDSAW HHS20

Item no., Standard	3030530
Weight [kg / lbs]	11.6 / 24,3
Blade dimensions Ø [mm / inch]	500 / 20
Arbor size [mm / inch]	25.4 / 1
Cutting depth [mm / inch]	212 / 8,3
Oil flow [LPM / GPM]	20-46 / 5 - 12
Working pressure [bar / psi]	120 / 1740
Max pressure [bar / psi]	172 / 2500
Max return pressure [bar / psi]	40 / 580
Rotation speed max [rpm]	2500
Blade peripheral speed [m/s / yard per second]	65 / 71
Length of whip hoses [m / feet]	2 / 6'6"
