

HYCON HPS08 POWER SAW

WE DON'T
BLOW
SEALS

INTEGRATED MOTOR DESIGN – DOESN'T BLOW SEALS

SHORT BODY - ERGONOMIC DESIGN

FLUSH CUT AS STANDARD

PRODUCT FEATURES

The HYCON HPS08 power saw cuts all types of concrete and steel. The HYCON HPS08 power saw is, with its 30 LPM oil flow, built for cutting concrete and ductile iron pipes, making it perfect for utility and water works. The saw is made for flush cutting as standard.

The body is the shortest on the market, 7 cm shorter than comparable saws. That makes the grip more comfortable for the user and allows the saw to work in confined spaces.

The saw is built with ergonomics in mind, with an integrated wall walker that improves user experience, and with 2-meter whip hoses so the couplings can rest on the floor during the cut, removing the weight from the saw. The saw is easily mountable in our SawEZ guide rail, ensuring the perfect cut, every time.

The HYCON Power Drive's high-quality, purpose-built motor ensures a minimum of service because it doesn't blow seals. The integrated drive unit design minimizes points of failure, making your tool last much longer.

HYDRAULIC POWER SAW HPS08

CE

Item no.	3030900
Weight [kg / lbs]	8
Body length [mm / inch]	480 / 18.8
Max cutting depth [mm / inch]	630 / 25
Oil flow [LPM / GPM]	30
Working pressure [bar / psi]	120 / 1740
Max pressure [bar / psi]	172 / 2500
Max return pressure [bar / psi]	40 / 580
Rotation speed max [rpm]	5800
Chain speed [m/s / yard per second]	27 / 29.5
Length of whip hoses [m / feet]	2 / 6'6"

ACCESSORIES

HYCON SawEZ Guide Rail, item no. 4040100. Adaptor, item no. 4040119

THE HYCON PRODUCT RANGE

ANGLE GRINDER · CUT-OFF, RING, POWER, AND HAND SAWS · CORE DRILLS · PICK HAMMER · LIGHT & HEAVY-DUTY
BREAKERS SUBMERSIBLE PUMPS · ROCK DRILLS · GASOLINE, DIESEL AND ELECTRIC POWER PACKS
