

HYCON HWP4 SUBMERSIBLE PUMP

NO PRIMING, NO DOWNTIME

**HIGH CAPACITY EVEN FOR
GROUND WATER LOWERING APPLICATIONS**

HANDLES DIRTY WATER AND SOLIDS

PRODUCT FEATURES

The HWP4 pump is in a league of its own. With a capacity of up to 180 m³/h, it can be used even in groundwater-lowering applications, where much more extensive and costly pumps are usually used.

Paired with, for instance, our 11-kW electric or 18-hp gasoline power packs, you will have a heavy-duty solution with remarkable cost reductions compared with other pumping systems. The direct drive motor ensures an all-day, everyday

operation without damage to the engine or the seals if the pump runs dry.

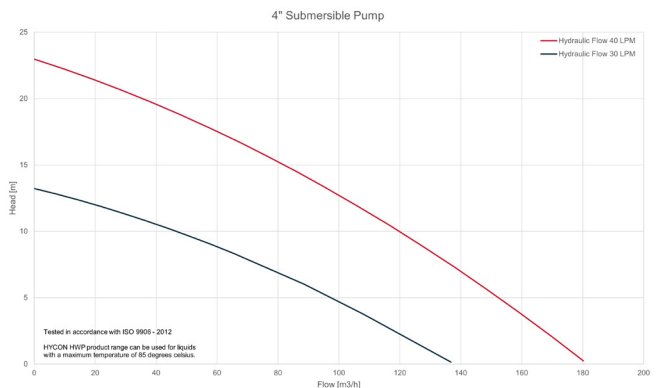

The clever impeller design makes the pump unaffected by particles size up to 74 mm.

HYDRAULIC SUBMERSIBLE PUMP HWP4

Item no.	3030004
10 m discharge hose kit incl. 4" BSP Male coupling	4032699
Weight [kg]	26.7
Dimensions L x W x H [mm / inch]	485 x 380 x 473 / 19 x 15 x 18.6
Oil flow [LPM]	30 - 40
Max pressure [bar]	172
Maximum flow capacity [m ³ /h]	180
Maximum head [m / ft]	20 / 66
Maximum size of solid particles Ø mm / inch]	74 / 2.9
Outlet size and connection, female thread	BSP 4"

PLEASE NOTE: Discharge Hose Kit is not included.
